EMC1701 High-side Current Sense & Temperature Sensor
12 pin 4mm x 4mm QFN

Circuit diagrams utilizing SMSC products are included as a means of illustrating typical semiconductor applications; consequently, complete information sufficient for construction purposes is not necessarily given. The information has been carefully checked and is believed to be entirely reliable; however, no responsibility is assumed for inaccuracies. Furthermore, such information does not convey to the purchaser of the semiconductor devices described any license under the patent rights of SMSC or others. SMSC reserves the right to make changes at any time in order to improve design and supply the best product possible.
Current Sense Resistor
Place between S+ and S-. Please refer to the EMC1701 datasheet for selection of this resistor.

SMBus Address Select
Please refer to the EMC1701 datasheet for selection of this resistor.

Peak Detect Duration and Threshold Select
Please refer to the EMC1701 datasheet for selection of these resistors.
